Phase 01

PLANNING

Needs assessment and procurement of essential relief items for affected areas.

Phase 02

LOGISTICS

Systematic packaging and efficient transportation to affected area & people

Phase 03

DISTRIBUTION

Direct interaction with families to ensure aid reached those in need.

Phase 04

REPORTING

Detailed documentation to maintain transparency and stakeholder accountability.

OVERCOMING CHALLENGES

"Severe environmental obstacles including floodwater and deep mud created treacherous paths for our relief teams."

Logistics were severely hampered by damaged routes. Exhaustion set in from carrying heavy relief packages through

Facing the Challenges

Volunteers wade through floodwaters to reach isolated family's resilience in action.

Homes submerged under rising waters, a stark reminder of the crisis.

Collapsed shelters reflect the urgent need for humanitarian intervention.

Sarah Foundation volunteers prepare relief packages for delivery - unity in service.

Flood damage documented for recovery planning and future preparedness.

Volunteers transport essential supplies through submerged roads - humanity in motion.
